Professional Summary

Frontend-focused Software Engineer skilled in building scalable web apps using JavaScript, TypeScript, HTML/CSS, React, LWC, and Node.js. Strong in UI development, API integration, and clean coding, with Agile experience and working knowledge of Angular.

Work Experience

Software Engineer | Accenture, Bengaluru Sept 2024 – Present

- Built and enhanced web components using Lightning Web Components (LWC) and JavaScript, applying strong frontend fundamentals transferable to Angular (components, events, reactive binding, modular architecture).
- Gained project experience in Warehouse Management Systems (WMS) using Manhattan Associates, working with Unix, SQL, and PL/SQL to support data-driven UI workflows.
- Collaborated with architects, backend teams, and business leads to translate requirements and wireframes into functional UI elements.
- Developed automations and scripts ensuring high performance and data accuracy, while actively contributing to Agile workflows through code reviews, sprint planning, and cross-browser debugging.
- Implemented REST API communication and optimized frontend–backend data handling.

Project Intern | C-DOT, Bengaluru Jul 2022 – Dec 2022

- Worked on India's Common Alert Protocol (CAP) system to improve national disaster communication workflows.
- Built ML-driven workflows for classifying alarm categories from OLT data, improving prediction accuracy by 20%.
- Collaborated with researchers to ensure usability, responsiveness, and performance of CAP-compliant interface components.

Technical Skills

- **Languages:** Python, C++, Apex, SQL, Unix Shell Scripting
- **Frontend & Backend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, Responsive UI, Angular (working knowledge), React.js, LWC, Node.js, Express.js, RESTful API development & integration, PL/SQL workflows and scripting
- **Tools:** Git/GitHub, Jira, AWS (EC2, S3 – basics), Agile/Scrum, Angular CLI, VS Code, Postman

Education

B. Tech in ECE | SRM-IST, Chennai Jun 2019 – Jun 2023

CGPA: 8.29 | Published Paper at ICIRCA 2023

Certifications

- Salesforce Administrator & Platform Developer I – Trailblazer (Sept 2024 – Jan 2025)
- Artificial Intelligence and Machine Learning – Skillsoft (Mar 2024 – Apr 2024)
- Full Stack Web Development – Coding Ninjas (May 2024 – Jul 2024)
